# SV Series 3.0 Slim

***Heavy Duty  
Industrial Vacuum  
Cleaner***

## Salient Features :

SV Series 3.0 Slim is a compactly built vertical type Industrial vacuum cleaner designed with Side channel blower at the bottom and the collection container at the Top. It is ideally suitable for any type of dry dust collection such as cotton, other fibers, plastic materials etc., It is a highly reliable and versatile model to be used in various departments in Industries such as Textile Industry, Plastic industries, Industries using various fibers.

The Machine is built with a compact side channel blower for delivering optimum performance. The blower is highly efficient and yet it is very silent and maintenance free.

The continuous rated side channel blower is ideally suitable for using longer hours and in varied applications. The Bag type filter made of polyester (Available with both Class L & M ) ensures complete filtration of the dust and also acts as the collection bag. The lid of the machine comes with a see through window for collection material indication.

## Technical Specifications:

Description	Unit	SV Series 3.0 Slim
Voltage	V	415
Frequency	Hz	50
Electrical Protection	IP	55
Insulation class	Class	F
Rated Power	KW	2.2
Air Flow	m <sup>3</sup> /h	300
Vacum Max	mmH <sup>2</sup> O	3000
Noise Level	dB(A)	72
Container Capacity	Liters	120
Filter Type	Type	Bag
Filter Surface	cm <sup>2</sup>	20000
Inlet	Dia in mm	50 / 40
Dimension	(L×W×H) cm	60×65×120
Weight	Kg	40
